Two Stage Oil-lubricated Reciprocating Compressor

Key product features

High quality piston rings

Efficient disc valve system for high volume compressor

High Efficient motor

Cast iron block

Industrial duty rating

Slow running speed

Benefits

Low oil carry-over and extended life of piston rings

Higher volumetric efficiency

Energy Saving

Outperforms and outlasts aluminium block compressor

No stand-by compressor required

Low wear & tear

* Feature available with select models only

AIR DRYER

Capacity
20cfm - 300 cfm

Working Pressure :
7kg - 12kg

AIR MOISTURE SEPARATOR

Capacity
20cfm - 150cfm

RECEIVERS

Air Receiver Tank
200 ltr to 2000 ltr

Working Pressure :
7kg - 10.5kg

AUTO DRAIN VALVE

Timer controlled & zero loss
Capacity : 50-2000 cfm
Working pressure : 16 bar
Media : Condensate
